# Wiring Pi

GPIO Interface library for the Raspberry Pi

Examples/How-To

wiringPi comes with many example programs to perform different tasks. You'll find these in the *examples* directory of the distribution if you downloaded it from the **git.drogon.net** website. Additionally in the *examples* directory, there are 2 others – *Gertboard*, *q2w* and *Piface* with examples for the Gertboard, quick2Wire and Piface interface boards.

Examples presented here are:

- Blink – The simple blink an LED example.
- Adafruit RGB LCD Plate
- The Quick2Wire system
